

ANIMAL MEDICAL CENTER, LLC
PRE-ANESTHETIC BLOOD TESTING CONSENT FORM

Client _____ Patient _____ Age _____ Date _____

Our greatest concern at AMC is the well being of your pet. Your pet is scheduled for anesthesia and/or surgery. Before putting your pet under anesthesia, we will perform a physical examination. We also recommend that a pre-anesthetic blood profile be performed to maximize patient safety and alert the doctor of any dehydration, anemia, kidney or liver diseases, which could complicated the procedure. These conditions may not be detected without a pre-anesthetic profile. These tests are similar to those your own physician would perform if you were to undergo anesthesia.
