

PLEASE ANSWER THESE QUESTIONS TO HELP US WITH YOUR PETS SKIN

What is the main problem you have noticed?

At what age did it start?

Are the symptoms all year round?

- or worse at a particular time of year, when?

Do you have other pets?

-are they affected

How often do you bath your pet?

-what with?

-does bathing help?

Or is there anything else you do that seems to help?

Do you know if any relatives of your pet have skin problems?

Does any human in the house have skin problems?

What do you use for flea control?

Are all the pets in house treated?

Have previous treatments been used?

-if so do you know what they were?

-what are you still using?

-what was the response to this treatment?

What is your pets diet?

Where is your pet exercised?

Does your pet sneeze/snort or wheeze?

Have you noticed any weight gain/increased appetite or increased thirst?

Has there been any vomiting/diarrhea or lethargy?

Is there anything else you think we should know that might help us with your pets skin?

Do you give your permission for us to get your pets records from your previous vet?

Please circle: Yes(pls sign)..... No I will arrange myself
